Atomic **Discussions**
## for Canvas

💬 Overview

Discussions allow students to connect with other students and increase their interaction with course content.
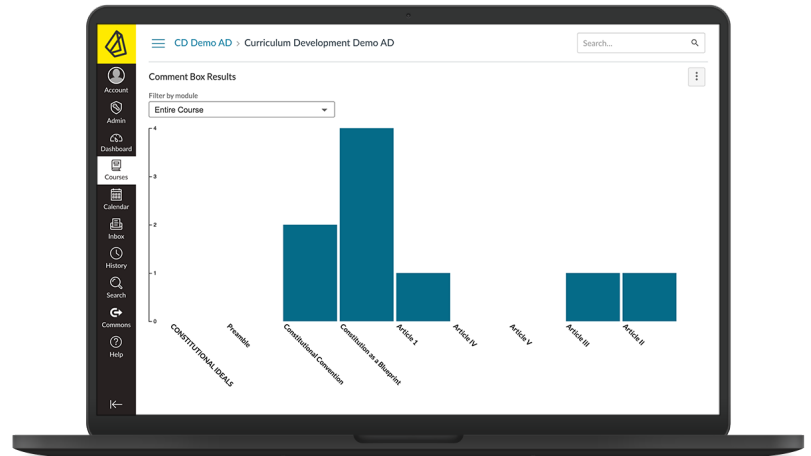

📄 Features

- Insert discussions directly into Canvas pages.
- Supports threaded discussions.
- Students can report inappropriate posts.
- Teachers can control a profanity blacklist used to auto-detect inappropriate posts.
- Discussions can be configured to make posts anonymous.

📊 Easy Reports

- View all posts by a student in a single view.
- Track overall student discussion participation.
- Filter discussion results by discussion, module, or entire course.
- Export results to a CSV or PDF file.

✔ **Accessible** - WCAG 2.1 AA Compliant

✔ **Increases Student Engagement**

✔ **Easy to Adopt**

✔ **Affordable**
